SUBJECT INDEX

Entries with pages in Roman type appear in this volume; *entries with data in Italic type appear in Pediatrics in Review.*

Abdomen, ultrasonography, candidiasis mass, bile duct obstruction due to, 858
Abuse
  child
    American Academy of Pediatrics and (letter), 433
    homicide and, 709
    serious, 113
  drug
    combination stimulants, *PIR7:234, 85–86*
    maternal, effect on newborn, 209
Accidents
  all-terrain vehicle, spinal cord injury, 271
  automobile
    adolescent behavior and, 603
    adolescents, pediatricians and (commentary), 549
    alcohol-related, children in, 870
    seat belt injury, masquerade as child abuse (letter), 435
  farm (letter), 784
  prevention
    bicycle helmet use, 677
    car seat rental scheme, 167
    child passenger safety, statewide hospital network program, 523
    traumatic infant death, risk factors, 518
Accutane, *see* Isotretinoin
Acetylation, phenotype, hepatotoxicity and, tuberculosis treatment, 912
Acidosis, renal tubular, carbonic anhydrase II deficiency syndrome, 371
Acne, isotretinoin risks, *PIR7:315, 85–86*
Acquired immune deficiency syndrome
  public health issues, 423
  school attendance and (Committee statement), 430
Adenopathy, cat scratch disease, central nervous system involvement, 714
Adolescents
  behavior, driving safety and, 603
  drinking patterns, social consequences, 139
  genitourinary injuries, break-dancing, 922
  homosexuality, *PIR7:296, 85–86*
  maternity (letter), 264
  motor vehicle safety, pediatricians and (commentary), 549
  self-destructive behavior, early indicators, 557
  self-examination, breast and testicular (letter), 435
  sexually transmissible infectious agents, sexually active and virginal asymptomatic girls, 488
  trauma victims, follow-up, 236
AIDS, *see* Acquired immune deficiency syndrome
Airway, upper, obstruction, *PIR7:227, 85–86*
Albuterol, metaproterenol sulfate *v*, effects, exercise-induced asthma, 173
Alcohol
  drinking patterns, adolescents, 139
  motor vehicle crashes related to, children in, 870
Allergy
  cow's milk, *PIR7:195, 85–86*
  nasal, rhinitis, *PIR7:212, 85–86*
American Academy of Pediatrics
  child abuse and (letter), 433
  Committee statements
    Committee on Child Health Financing: Medicaid policy statement, 762
    Committee on Drugs, Section on Anesthesiology: Guidelines for the elective use of conscious sedation, deep sedation, and general anesthesia in pediatric patients, 754
    Committee on Environmental Hazards: Involuntary smoking—A hazard to children, 755
    Committee on Nutrition, correction (letter), 135
    Committee on Nutrition: Fluoride supplementation, 758
    Committee on Practice and Ambulatory Medicine: Vision screening and eye examination in children, 918
    Committee on School Health and Committee on Infectious Diseases: School attendance of children and adolescents with human T lymphotropic virus III/lymphadenopathy-associated virus infection, 430
    Section on Oncology-Hematology: Guidelines for the pediatric cancer center and role of such centers in diagnosis and treatment, 916
  President's message, 409
American Board of Pediatrics, candidates certified, 621, 934
Amiodarone, thyroid function, effects on, 703
Amish population, *Haemophilus influenzae* type b disease, genetics, immunization, and prophylaxis, 289
Amoxicillin
  amoxicillin-clavulanate potassium *v*, acute paranasal sinus infections, 795
  nonspecific vaginitis (letter), 439
Amoxicillin-clavulanate potassium, amoxicillin *v*, acute paranasal infections, 795
Ampicillin, nonspecific vaginitis (letter), 439
Analgesia, pain control, hospital usage, children *v* adults, 11
Anemia
  aplastic
    bone marrow transplantation experience, 179
    chloramphenicol therapy and (letter), 932
  infection/inflammation and, *PIR7:306, 85–86*
Anesthesia, general, guideline clarification (Committee statement), 754
Anthropometry, computed axial tomography scanning of thigh and, nutritional assessment, 732
Antibiotics
  Haemophilus influenzae b, nasopharyngeal colonization, 242
  pediatricians and office practice (letter), 437
Antibody
  antiribonucleoprotein, mixed connective tissue disease and, *PIR7:309, 85–86*
  monoclonal, surface antigen phenotyping by, juvenile chronic myelogenous leukemia, 330
  neutralizing, measles revaccination, 471
Antigen, surface, phenotyping, juvenile chronic myelogenous leukemia, 330
Antimalarial drug, systemic onset juvenile chronic arthritis, 99
Antimicrobial treatment, acute paranasal infections, 795
Antirheumatic drug, slow-acting, sys-

temic onset juvenile chronic arthritis, 99
Aorta, coarctation, early surgery and, *PIR7:246, 85–86*
Apnea
home monitoring, sudden infant death syndrome and, 451
monitoring (letter), 133
phenothiazine-induced, opioid system and (letter), 261
resuscitation from, sudden infant death syndrome, high-risk group, 495
sleep
nemaline myopathy, 390
obstructive, *PIR7:268, 85–86*
Arthritis, systemic juvenile chronic, slow-acting antirheumatic drug use, 99
Aspiration
makeshift pacifier, fatal, 369
syndromes, wheezing and, *PIR7:247, 85–86*
Aspirin
Kawasaki syndrome, Reye syndrome, and (letter), 616
Reye syndrome and, decreasing trends, 93
Asthma
educational intervention, computer, 1
exercise-induced, albuterol *v* metaproterenol sulfate effects, 173
wheezing infant and, *PIR7:247, 85–86*
Athletes, body weight, *PIR7:317, 85–86*
Attention deficit disorder, methylphenidate dosage, blood levels, and, 222
Auditory testing, bilirubin and (letter), 928, 929
Automobile accidents, *see* Accidents
Azathioprine, systemic onset juvenile chronic arthritis, 99

Bath sponge, contaminated, *Pseudomonas aeruginosa* otitis externa, infant, 920
Bed-wetting, prevalence, perceived impact, and prescribed treatment, 482
Behavior
attention deficit disorder, methylphenidate dosage, blood levels, and, 222
self-destructive, early indicators, childhood and adolescence, 557
Bell-clapper deformity, intermittent testicular torsion and, 908
Benzyl alcohol
toxicity
impact on neurologic handicaps, very low birth weight infants, 507
intraventricular hemorrhage and, very low birth weight infants, 500
Bicycle helmet, accident prevention and, 677
Bile duct, obstruction, intraluminal mass of candidiasis, 858
Bilirubin, auditory testing and (letter), 928, 929
Biotin, blood levels, multivitamin administration, total parenteral nutrition, 530
Birth defect, asymptomatic congenital cytomegalovirus infection, intellectual development, school-aged children, 801
Birth weight
discordant, monozygous twins, follow-up growth study, 336
low
developmental delay, muscle tone abnormality as marker, 659
predicting outcome (letter), 615
special care nursery graduates, diphtheria, tetanus, and pertussis immunization, 569
supplementation with human milk protein, growth and, 649
normal, preterm infants, medical care and, 158
prenatal care delivery and, nurse home visitation, 16
very low
benzyl alcohol toxicity, impact on neurologic handicaps, 507
benzyl alcohol toxicity, intraventricular hemorrhage and, 500
brain growth during infancy, IQ at 3 years and, 196
classroom performance and social factors, 203
oral supplementation, serum vitamin E levels during, 636
Bladder
control, giggle micturition, *PIR7:316, 85–86*
injury, uroascites and, umbilical artery catheterization, 421
Blood pressure, childhood measurements, family history and, future blood pressure status prediction, 862
Bone marrow
aspiration, acute idiopathic thrombocytopenic purpura, management controversies, 49
transplantation, aplastic anemia, 179
Bowel
inflammatory disease
computed axial tomographic scanning of thigh, nutritional assessment, 732
growth failure, *PIR7:307, 85–86*
Brain
growth during infancy, IQ at 3 years and, very low birth weight infants, 196
necrosis, gelatin sign, infants, 774
Break-dancing, genitourinary injuries secondary to, children and adolescents, 922
Breast, self-examination, adolescents (letter), 435
Breast-feeding
dynamics, urban hospital, 357
sleep/wake patterns, 322
Breathing, control, nemaline myopathy and, 390
Bronchiectasis, cystic fibrosis and, *PIR7:276, 85–86*
Bronchiolitis, *PIR7:219, 85–86*
wheezing infant and, *PIR7:247, 85–86*
Bronchopulmonary dysplasia
chloride depletion, effects, 212
premature infant, electrocardiogram at 1 year, 353
respiratory distress syndrome and, growth and development, preterm infants, 345
vitamin E injection, complication, soft tissue calcification, 382
Bronchospasm, exercise-induced, albuterol *v* metaproterenol sulfate effects, 173
Bullet, lead poisoning and, 413
Burns
charcoal, 773
esophageal, caustics and, *PIR7:314, 85–86*

Caffeine
combination stimulant, abuse, *PIR7:234, 85–86*
gastroesophageal reflux and, infants at risk for sudden infant death syndrome, 807
Calcification
intracranial, carbonic anhydrase II deficiency syndrome, 371
soft tissue, vitamin E injection complication, 382
Calcitonin, sex, race, age, season, and diet effects, 891
Calcium
hormone regulation
serum minerals, parathyroid hormone, and calcitonin, infants, 891
vitamin D status and, infants, 883
Cancer center, pediatric, guidelines (Committee statement), 916
Candidiasis, intraluminal mass, bile duct obstruction due to, 858
Carbonic anhydrase II deficiency syndrome, 371
Cardiovascular disease
family history, childhood blood pressure measurements and, future blood pressure status prediction, 862
life insurance for, 687
Carrying, increased, effects on crying, 641
Car seats
commentary, 256
congenital hip dislocation and, 873
rental scheme, establishment and evaluation, 167
statewide hospital network program, 523
Catheterization
central venous, femoral vein, safety and effectiveness, 842
umbilical artery, bladder injury and uroascites from, 421
Cat scratch disease, central nervous system involvement, 714
Caustics, esophageal injury and, *PIR7:304, 85–86*
Central nervous system, cat scratch disease, involvement in, 714
Cerebral palsy, benzyl alcohol impact on, very low birth weight infants, 507
Cerebrospinal fluid, cell counts (letter), 441
Certification, time-limited, American Board of Pediatrics (commentary), 926
Charcoal burns, 773
Chelation, bullet, lead poisoning and, 413
Chemoprophylaxis, rifampin, red man syndrome and, day-care center, 633

Chest pain (letter), 617
Chickenpox, history, varicella vaccine *v*, leukemia, 53
Chicken soup, dangers (letter), 785
Child abuse
  American Academy of Pediatrics and (letter), 433
  homicide and, 709
  serious, 113
  sexual, seat belt injury masquerading as (letter), 435
Childhood, self-destructive behavior, early indicators, 557
Children
  elderly and, divergent paths, commentary, 117
  missing, business (commentary), 119
Chlamydia, sexually active and virginal asymptomatic adolescent girls, 488
Chlorambucil, systemic onset juvenile chronic arthritis, 99
Chloramphenicol, therapy, aplastic anemia after (letter), 932
Chloride, depletion, effects, bronchopulmonary dysplasia, 212
Cholesterol, high- and low-density lipoprotein, migraine and, 316
Cholestyramine, gentamicin, metronidazole, and, severe persistent diarrhea, 477
Chromosome 1q deletion syndrome, ocular finding (letter), 786
Chronic illness
  educational intervention, computer, 1
  systemic onset juvenile arthritis, slow-acting antirheumatic drug use, 99
Circumcision
  defense (letter), 265
  urinary tract infections and (letter), 267
Classroom performance, social factors and, very low birth weight infants, 203
Coarctation, aorta, early surgery, *PIR7:246, 85–86*
Cocaine, maternal abuse, effects on newborn, 209
Colic, infant crying, increased carrying effects, 641
Collaboration (commentary), 925
College, measles (letter), 789
Coma, nonketotic hyperosmolal diabetic, management, 770
Commentaries
  Academic hubris, 251
  Acute medical care of severe head injury is not enough, 251
  An impossible assignment for the pediatrician, 549
  A shadchin in academe, 925
  Benefits/risks of syrup of ipecac, 551
  Children and car seats, 256
  Children in self-care: A new priority for pediatricians, 548
  Divergent paths for children and the elderly, 117
  Haemophilus influenzae vaccine, 258
  Handguns: Risks versus benefits, 781
  Health insurance, medical care, and children's health, 124
  Monitoring patients in pediatric intensive care, 778
  Multicenter trial of cryotherapy for retinopathy of prematurity, 428
  Optometric vision-training, 121
  Prevention of intraventricular hemorrhage with phenobarbital therapy: Now what?, 779
  Statement on time-limited certification, 926
  Tardive dyskinesia: A concern for the pediatrician, 553
  The business of missing children, 119
Computed axial tomography, thigh scanning, nutritional assessment, 732
Computer, asthma, educational intervention, 1
Congenital abnormality
  cytomegalovirus infection, intellectual development, school-aged children, 801
  hip dislocation, safety seat use, 873
  maternal α-fetoprotein levels, unexplained elevation, 582
  ventricular septal defect, chance and (letter), 930
Constipation (letter), 933
Copper, zinc and, balances, preterm infants, 513
Coronary artery disease, risk factors, *PIR7:254, 85–86*
Coxa plana, *PIR7:299, 85–86*
Coxsackievirus B2, infection, incontinentia pigmenti and, neonate, 897
Crohn disease, growth failure, *PIR7:307, 85–86*
Croup, severe, *PIR7:227, 85–86*
Crying, increased carrying effects, 641
Cryptosporidium, outbreak, day-care center, 152
Cystic fibrosis
  diagnosis and treatment, *PIR7:276, 85–86*
  education, patients and parents, 229
  family psychologic adjustment, 745
  pancreatic function assessment, pancreatic lipase and cationic trypsinogen for, 301
  wheezing infant and, *PIR7:247, 85–86*
Cytogenetics, surface antigen phenotyping by, juvenile chronic myelogenous leukemia, 330
Cytomegalovirus
  asymptomatic congenital infection, intellectual development, school-aged children, 801
  day care and (supplement), 951

Day care
  cryptosporidiosis outbreak, 152
  diarrhea, adherent enteropathogenic *Escherichia coli*, 296
  illness and (supplement), 951
  infectious diseases, *PIR7:259, 85–86*
  rifampin dosage, red man syndrome, 633
Day-surgery facility, food for parents, 269
Death, traumatic, infant, risk factors, 518
Dental product, self-administered, fluoride amounts, 876
Dermatitis, seborrheic, *PIR7:204, 85–86*
Dermatosis, clarification, *PIR7:318, 85–86*
Development

apnea of, evaluation, sudden infant death syndrome and, 451
electrocardiogram, 1 year of age, 353
enteral feeding, necrotizing enterocolitis and, 275
inguinal hernia, epidemiology, 246
intracerebellar hemorrhage, *PIR7:211, 85–86*
intracranial hemorrhage and phenobarbital, neonate, 443
maternal employment and, 459
muscle tone abnormality, 664
normal birth weight, medical care and, 159
poverty, nutrition, and (letter), 262
repiratory distress syndrome and bronchopulmonary dysplasia, growth and development, 345
retinopathy of
cryotherapy for (commentary), 428
intraventricular hemorrhage, oxidative damage, and (letter), 129
vitamin E injection complication, 382
vitamin E (letter), 787

Prematurity—*continued*
small for gestational age infant, growth and development, *PIR7:245, 85–86*
supplementation with human milk protein, growth and, 649
tactile/kinesthetic stimulation effects, 654
total parenteral nutrition, multivitamin evaluation, 530, 539
zinc and copper balances, 513
Prenatal care, delivery improvement, nurse home visitation, pregnancy outcomes and, 16
Prepuce, care (letter), 265
Prescription, writing, *PIR7:315, 85–86*
President's message, The state of the American Academy of Pediatrics: 1985, 409
Pressure
intracranial, monitoring, insulin infusion and, nonketotic hyperosmolal diabetic coma, 770
Po_2, monitoring, light and (letter), 788
Primary care, capitation reimbursement, 29
Prognosis, small for gestational age premature infants, *PIR7:245, 85–86*
Prolapse, mitral valve, scoliosis, *PIR7:234, 85–86*
Protein C, congenital deficiency, purpura fulminans with, 670
Pseudomonas aeruginosa, otitis externa, contaminated infant bath sponge, 920
Public health, pediatric acquired immune deficiency syndrome, 423
Publicity, missing children issues, commentary, 119
Pulmonary function testing, *PIR7:235, 85–86*
Purpura
Henoch-Schonlein, ileal stricture as complication, 396
idiopathic thrombocytopenic, management controversies, 49
Purpura fulminans, congenital protein C deficiency and, 670
Pyridoxine, blood levels, multivitamin administration, total parenteral nutrition, 530

Red man syndrome, rifampin dosage and, day-care center, 633
Reflux, gastroesophageal, *PIR7:316, 85–86*
Rehabilitation
adolescent trauma victims, 236
renal transplant patients, 465
Rehydration (letter), 618
Reimbursement, *see* Insurance
Remission, acute lymphocytic leukemia, 765
Repiratory distress syndrome, bovine surfactant characterization, infants, 572
Research, academic hubris (commentary), 251
Residency, telephone management, training in, 822
Respiratory distress syndrome
bronchopulmonary dysplasia and, growth and development, preterm infants, 345
necrotizing tracheobronchitis, 366
Respiratory failure, nemaline myopathy as cause, 390
Respiratory infection, acute, amoxicillin *v* amoxicillin-clavulanate potassium, 795
Respiratory syncytial virus, *PIR7:219, 85–86*
Respiratory tract, infections, day care and (supplement), 951
Respiratory virus, acute otitis media, presence in, 698
Resuscitation, sleep apnea, sudden infant death syndrome, high-risk group, 495
Resuscitators, self-inflating, limitations, 417
Retinopathy of prematurity
cryotherapy for (commentary), 428
intraventricular hemorrhage, oxidative damage, and (letter), 129
vitamin E injection complication, 382
vitamin E (letter), 787
Reye syndrome
aspirin for Kawasaki syndrome and (letter), 616
aspirin use and, decreasing trends, 93
changing epidemiology, 598
Rheumatic disease, *PIR7:309, 85–86*
Rhinitis, allergic, *PIR7:212, 85–86*
Riboflavin, blood levels, multivitamin administration, total parenteral nutrition, 530
Rifampin
excessive dose, red man syndrome, day-care center, 633
Haemophilus influenzae type b, Amish population, 289
Risk factors
cardiovascular, *PIR7:254, 85–86*
coronary heart disease and stroke, migraine and, 316
isotretinoin for acne, *PIR7:315, 85–86*
Rotavirus, immunization, *PIR7:291, 85–86*

Safety, automobile, adolescent behavior and, 603
Salicylate
declining use, Reye syndrome and, 598
toxicity (letter), 269
Scalp vein, acquired arteriovenous fistulas, hemophiliacs, 722
Scapula, retraction, abnormal, premature infants, 664
Schilder's disease, 107
School, attendance, acquired immune deficiency syndrome and (Committee statement), 430
School bus, seat belts and (letter), 619
Scoliosis
hypoxia, hypercapnia, and exercise, ventilatory patterns during, adolescents, 692
mitral valve prolapse, *PIR7:234, 85–86*
Screening, phenylketonuria, *PIR7:269, 85–86*
Scrotum, intermittent testicular torsion and, 908
Seat belts
injury, masquerade as child abuse (letter), 435
school buses and (letter), 619
Seborrheic dermatitis, *PIR7:204, 85–86*
Sedation, conscious and deep, guideline clarification (Committee statement), 754
Seizures, partial, 725
Sexual abuse, seat belt injury masquerading as (letter), 435
Sexually transmitted infection, sexually active and virginal asymptomatic adolescent girls, 488
Sibling, sudden infant death syndrome, home monitoring, evaluation, 451
Sickle cell disease, bone infarction *v* osteomyelitis, *PIR7:297, 85–86*
Sinusitis, acute, amoxicillin *v* amoxicillin-clavulanate potassium, 795
Skin
dermatitis, seborrheic, *PIR7:204, 85–86*
superficial lumps, *PIR7:306, 85–86*
Sleep
hypoventilation, nemaline myopathy as cause, 390
phenothiazine-induced apneas, opioid system and (letter), 261
Sleep/wake patterns, breast-fed infants, 322
Smoking, involuntary, hazards (Committee statement), 755
Soft tissue, calcification, vitamin E injection complication, 382
Spinal cord, injury, all-terrain vehicle accidents, 271
Splenectomy, partial, Gaucher's disease (letter), 618
Statistical significance (letter), 438
Stature, blood lead levels and, relationship, 281
Steatorrhea, pancreatic function assessment, cystic fibrosis, 301
Steroids, acute idiopathic thrombocytopenic purpura, management controversies, 49
Stimulants, combination, abuse, *PIR7:234, 85–86*
Stimulation, tactile/kinesthetic, effects, premature infants, 654
Streptococcus, group B, meningitis, long-term outcome, 217
Stress
life transitions, use of health care services and diagnoses received, 834
psychosocial, organ transplantation, parents, 738
Stricture
ileal, Henoch-Schonlein purpura complication, 396
tracheal, necrotizing tracheobronchitis, 366
Stroke, risk, migraine and, 316
Subarachnoid space, idiopathic external hydrocephalus, benign familial macrocephaly, relationship, 901
Sudden infant death syndrome
apnea monitoring (letter), 133
high-risk group, resuscitation for sleep apnea, 495
infant evaluation by apnea programs and, 451
infants at risk for, xanthine influence on gastroesophageal reflux, 807
near miss, clinical and electrocardiographic correlation, 811
twins, simultaneous, 816
Suicide, prevention, childhood and ado-

lescent self-destructive behavior identification, 557
Superior vena cava syndrome, *PIR7:296, 85–86*
Surfactant, bovine, characterization, respiratory distress syndrome, infants, 572
Surgery
day-surgery facility, food for parents, 269
hospitalization for, changing patterns, 587
pediatric, Halifax, 764
Sweat testing, cystic fibrosis, *PIR7:276, 85–86*

Tactile stimulation, effects, premature infants, 654
Tardive dyskinesia, pediatrician awareness (commentary), 553
Technology, handicapped children, pediatrician's viewpoint, 71
Telemetry, electroencephalogram, partial seizures, 725
Telephone management, pediatric resident training in, 822
Testicles
intermittent torsion, 908
self-examination, adolescents (letter), 435
Testing
pulmonary function, *PIR7:235, 85–86*
sweat, cystic fibrosis, *PIR7:276, 85–86*
Testosterone, low-dose, somatic growth, effects on, 853
Tetanus, diphtheria, pertussis, and, immunization, special care nursery graduates, 569
Theophylline, gastroesophageal reflux and, infants at risk for sudden infant death syndrome, 807
Thiamine, blood levels, multivitamin administration, total parenteral nutrition, 530
Thyroid function, amiodarone therapy effects, 703
Tidal volume, hypoxia, hypercapnia, and exercise, patterns during, mild scoliosis, adolescents, 692
Tocopherol, oral supplementation, serum levels, very low birth weight infants, 636
α-Tocopherol, E-Ferol, toxicity, polysorbate 80 and, 593
Tolazoline
infusion, vasospasm and, neonate, 405
pharmacokinetics, oliguria and, newborn, 307
Torsion, testicular, intermittent, 908
Toxicity
rifampin, red man syndrome, day-care center, 633
salicylate (letter), 269
Toxicology, pediatric, acute poisoning, children's hospital, 144
Trachea
injury, high-frequency ventilation and, 608
stricture, necrotizing tracheobronchitis, 366
Tracheobronchitis, necrotizing, 366
Traffic, car seat rental scheme, establishment and evaluation, 167
Transfusion, fresh frozen plasma partial exchange, necrotizing enterocolitis (letter), 786
Transplantation
bone marrow, aplastic anemia, 179
kidney, long-term results, 465
organ, psychosocial issues, parents, 738
orthotopic liver, neurovisceral storage disease with supranuclear ophthalmoplegia after, 104
Trauma
see also Injury
adolescent victims, follow-up, 236
candidiasis mass, bile duct obstruction due to, 858
infant death, risk factors, 518
Trypsinogen, cationic, pancreatic lipase and, pancreatic function assessment, cystic fibrosis, 301
Tuberculosis
acetylation phenotype and hepatotoxicity, 912
day care and (supplement), 951
isoniazid absorption, dose formulation effects, 850
Twins
monozygous, discordant within-pair birth weights, follow-up growth study, 336
simultaneous sudden infant death syndrome, 816
Tymypanostomy tubes, otitis media, child development, and, 88

Ultrasonography
abdominal, candidiasis mass, bile duct obstruction due to, 858
gelatin sign, cerebral necrosis, infants, 774
intracerebellar hemorrhage, newborn infant, *PIR7:211, 85–86*
Umbilical artery, catheterization, bladder injury and uroascites from, 421
Urinary tract, infection, circumcision and (letter), 267
Uroascites, bladder injury and, umbilical artery catheterization, 421

Vaccination, measles, revaccination after 15 months of age, 471
Vaccine
Haemophilus influenzae type b (commentary), 258
measles
early immunization, reimmunization after, 45
revaccination after 15 months of age, 471
new, *PIR7:291, 85–86*
varicella, chickenpox history *v*, leukemia, 53
Vaginitis, nonspecific, metronidazole (letter), 439
Varicella
immunization, *PIR7:291, 85–86*
infection, aspirin use and Reye syndrome, trends, 93
salicylate use, changing patterns, Reye syndrome and, 598
vaccine, chickenpox history *v*, leukemia, 53
Vasospasm, tolazoline infusion and, neonate, 405
Ventilation
assistance, orotracheal *v* nasotracheal intubation benefits, neonates, 39
high-frequency, tracheal injuries, 608
hypoxia, hypercapnia, and exercise, patterns during, mild scoliosis, adolescents, 692
mechanical, necrotizing tracheobronchitis, 366
Vesiculobullous lesion, incontinentia pigmenti, coxsackievirus B2 infection and, neonate, 897
Violence, homicide, 709
Vision, optometric training (commentary), 121
Vision screening, eye examination and (Committee statement), 918
Vitamin A, blood levels, multivitamin administration, total parenteral nutrition, 539
Vitamin B_{12}, blood levels, multivitamin administration, total parenteral nutrition, 530
Vitamin D
blood levels, multivitamin administration, total parenteral nutrition, 539
calcium-regulating hormones and minerals, sex, race, age, season, and diet effects, infants, 883
Vitamin E
blood levels, multivitamin administration, total parenteral nutrition, 539
E-Ferol toxicity, polysorbate 80 and, 593
injection complication, soft tissue calcification, 382
oral supplementation, serum levels, very low birth weight infants, 636
premature infant (letter), 787

Weight, athletes and, *PIR7:317, 85–86*
Wheezing, infant, *PIR7:247, 85–86*
Whitlow, herpetic, *PIR7:317, 85–86*
Williams syndrome, hope (letter), 438
Woodticks (letter), 261

Xanthine derivative, gastroesophageal reflux and, infants at risk for sudden infant death syndrome, 807

Zinc
copper and, balances, preterm infants, 513
deficiency, edema and (letter), 132
